

There is a better way, Vonya Global will show you.

A Strategic Partner for Improving Construction Audit

Vonya Global provides Construction Auditing and Accounting services encompassing the entire life cycle of a capital project. We protect Owner's interests by utilizing the skills of highly experienced construction auditing/accounting and construction management professionals who develop favorable contract documents, improve the project control environment, and ensure that all project costs are compliant, reasonable, documented, and accurate.

Construction Auditing - our construction auditing services are customized to your specific capital project life cycle.

Pre-Award - Conceptual Budget development; RFP development; bid analysis and award process; general conditions review; contract review, development and negotiation; Owner project team structuring; and project process review and controls for Owners.

Contract Compliance/Administration - substantiation of compliance with General Contractor, Construction Manager, Architectural/Engineering and vendor contractual agreements, including reviews of: Change Orders, Applications for Payment, Invoices, Purchase Orders, etc.

Close-out - final audit and verification of project costs and compliance to contract close-out terms and conditions.

Owner Consulting - our owner consulting services helps owners develop favorable contracts, develops and assists with the implementation of the Owner's project management team, develops and implements the Owner's project controls, including the development of a departmental Policies & Procedures Manual.

Construction Accounting Services - development of the Owner's project financial manual and conducting the accounting and financial reporting for a project from commencement through final completion.

Vonya Global is a partner that remains On Point. The Vonya Global proprietary client service framework On POINT Client Service™ establishes a quality assurance process to make sure we are delivering to the expectations of our clients. There is a better way, let Vonya Global show you.
